Dr. J. WILLIAMS, Chemist and Pharmaceutist, after udving closely the practice of Drs. Abernethy and Jamson, England, and observing the nature of the Crarlen and Hardeness, and the properties of the Crarlen and western portion of the United States, where it presais to a greater extent than elsewhere, procured from outh America, certain roots and herbs, from which he repared an 'Elizir,' which, after eighteen years' use in rivate practice, has proved liself more efficacious in the ure of Physiepsia, than any nedicine that has ever been repared in any age or any clime, for the same purpose. Having submitted it, with an explanation of its components, to a number of Physiciams of Philadelphia, among them were the late Drs. Joseph Hartshorne and J. C. forton, it has received their entire approval, and many if the Medical Faculty are not only prescribing it for heir patients, but are using it themselves personally, and in their families. As a tonic, it is unequalled, and its proporties are of solinvigorating a nature, that it is given with serfect safety and success to the most tender infants. The 'Elizir' is very gradual, but certain in its action apon the organis of digestion, the increased secretions of the liver, pancreas and mucous membrane of the stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsia can only be cured by gradually restoring the organs of digestion to a healthy state. DAILY COURIER.

MONDAY, SEPTEMBER 13, 1858. Be Reading Matter on every page. The Rad River Raft.

From statements that have been made in sevidea is generally entertained that the Government has abandoned the improvement of the Red river as an impracticable scheme. This is not the case. It is true, however, that the Bureau of Topographical Engineers, under the recommendation of Col. Fuller, the engineer in charge of the work, substituted the plan of opening the high water channel through Lake Sodas and the bayous lying east of the raft, and thus affecting a ermanent improvement of the river, for the almost impossible undertaking of removing the

Under this plan the work was commenced and successfully carried on towards completiom, but the amount appropriated by Congress being enrely insufficient for the purpose, further operaions were necessarily suspended at the close of the season. At the last session of Congress a trong effort was made to obtain further means Office, Pifth st. opposite Court House. for earying out the plans of the Topographical Bureau, but owing to the condition of the treasury at that time, the effort was unsuccessful. There is probably no work of river improve

nent which has heretofore received the attention I the government more worthy of its considera ion than the ouc above referred to. It is not of a purely local character, and we think its further prosecution will not be opposed by the conscieuious scruples of those who maintain that all internal improvements by the general Government e unconstitutional and not to he made.

The Red river is, and must be for a long time come, from the want of railroads, and passable arth roads in that section of the country, an imorlant military line of communication belween he Mississipy i river and the posts in northern Texas and New Mexico. The cost of opening the new channel of the river, which will obviate the cessily of transhipment, around the raft, of oops, military stores, etc., would be but a small em in comparison to the inconvenience, delay nd enormous expense cutailed upon the Quarter daster's department of the army by the present bstruction to the navigation of that river.

We hope with the revival of business through ut the country, and the flattering prospects of a onstantly increasing treasury, a new appropria on will be made as early as possible after the ressembling of Congress, and that the means lready expended will not be thrown away for want I' the very small necessary sum to complete this aporlant work, which, we understand, can be adily accomplished in one year, after the necesary amount shall have been provided by the govnment.

The Black Republican Party.

While the editor of the Louisville Journal was dvising the Americans of the South to go with in, and fight the Democracy under the Black Republican banner, he ought to have shown his eaders the following picture of their new allies. The picture is from the Springfield (Mass.) Reublican, and was, consequently, drawn by one tho knew what he was about. Let the Americans of the South read it, and then decide whether or of they are willing to go into the ranks of such r organization at the dictation of the editor of he Journal:

The fact is, the Republican party isn't a party yet, and still worse, isn't likely to be at present. What it needs more than anything else, is a definition of itself, a discipline, a boundary, a habitation, doors to let the people in, walls to keep thew ia, a recognised head of the house to look up to as a "provider." It has none of these things now, but inhabits a sort of lenacre let, half the bars of which are down three-gonguters of the time. You a hair gong and ay be re-clected; truck und dicker in our State unmittee, so that Burlingame may not be heat, id so on. A Gardnerite or a "straight Repubev are in the Democratic and every other well

When David Wilmot first promulgated the doc ine of his proviso, he was an ardent Democrat, full fellowship with the national organization ajoying in unusual degree the confidence and reect of the Democracy. When he promulgated e new doctrine it immediately became a ques-on with his Democratic constituency, whether hey should invite probable defeat by bringing ut a sound Democrat, or wbether it was not bet-er to support him, sound on every Democratic rinciple but this, rather than allow an Abolitionprinciple but this, rather than allow an Abolitionist to be elected, unsound not only on this but on all other questions. The alternative with the true national Democracy was between the policy of supporting Wilmot, "at least a better Democrat than any Abolitonist," and bringing out a true Democrat sound on all points, including the proviso, with the probability of defeat. An honest division of opinion arose, of course, among the most honest men of the party. Many went off with Wilmot, espousing his proviso; many went with Wilmot, espousing his proviso; many went off wilb him notwithstanding his proviso; and it was the defection of these last that broke down the organization for so long a time in his district. The plea that Wilmot was "at least a better Democrat than any Abolitionist," was the one which ruined the Democratic cause in his district.— David Wilmot, the quondam Democrat, did more to disorganize and paralyze the Democracy of Pennsylvania than all the Whigs and Abolitionists

of the State combined. Has the result of his de-lection been agreeable to the South?

There was a similar question in the legislature of Massachusetts when Charles Sumner was elect-ed to the Senate of the United States. Sumner was a Democrat of ability, intelligence, and very and views on every political question but that slavery. It was feasible for the Democratic arty to elect him by a combination with a few oderale men of other parties. By voting for a und Democrat they hazarded the election of a pulirmed abolitionist Whig. They voted for

confirmed abolitionist Whig. They voted for Sunner on the plea that he was "at least a better Democrat than an Abolitionist." Has the result in his case been palatable to the South?

The case of Salmon P. Chase, in Ohio is another one precisely similar to that of Summer. Chase was an able man and a Democrat, but Chase was also a Freesoiler. He was voted for by the opposition because of his Freesoilism, and by a portion of the Democracy, notwithstanding his Freesoilism, on the score that he was "at least a better Democrat than a Whig Abolitionist." Have the Democracy realized any benefit from his Democracy? Have they not reaped the whole injury of his Freesoilism?

his Freesoilism?

The same was the ease in the election of Preston King, of New York, ot Trumbull, of Illinois, and from a dozen other men from the Northeru States now in the Senate who were elected by the union of the opposition with that portion of the Democracy who thought they were "at least better Democracy of the country has had much experience in this policy of preferring the election of renegades rather than hazarding defeat with sould men. Are the Democracy, in the South especially, in view of this experience, enamored of the destructive policy?

cspecially, in view of this experience, enamored of the destructive policy?

It is through this futal policy that every congressional district in New England has been lost to the Democratic party. It was by this policy that we lost New York in 1848; a large portion of the party going off upon the Buffalo platform—a sound Democratic platform except upon the slavery question, "at least a better Democratic platform than that of the Whigs and Abolitionists." We lost Ohio also, in the same way, and will never be able to regain her in fact until we shall have

The Ohio Life and Trust Company. The report of the assignees of the Ohio Life Inurance and Trust Company has been made pubcreditors. Stockbolders have nothing left, and age. The delay in the presentation of the report few of the causes of the delay and embarrassment altending the investigations of the assignees .-

Take the following for exemples: 1. The confused condition of the book mand pacers at the agency in New York, which rendered t impossible to ascertain, from the books and pa-ers, the actual state of many of the most im-ortant of the numerous accounts in that office, of both debits and credits, had been entirely omited; that many erroneous and false entries, for large amounts, had been made on the books; that many of the securities held at the office as collaterals to loans, had been separated from the obligations, to secure which they were held, and again pledged to secure money borrowed, in some cases in the name of the company, not only without the knowledge or authority of the Trustees, out the knowledge or authority of the Trustees, but against their express instructions. Also, that a large amount of the bills and notes forwarded by correspondents for collection only, had been pledged in the same way. Of these transactions, the books and papers afforded no reliable evidence, and, so far as they related to parties with whom the company had accounts, required the interchange of full transcripts of the accounts, and a comparison of the items, to reconcile the discrepancies. This required much time. In some cases, the request of a transcript has been met eases, the request of a transcript has been met with neglect, and in others, hy a refusal to for-ward any account. Much time was required to obtain detailed accounts from correspondents. Re-peated claims for the credit of items omitted, of the correctness of which no evidence was found, also occasioned delay and embarrassment. All the books and papers in the office of the New York ageucy were in the custody of the sheriff, held under numerous attachment suits, requiring

held under numerous attachment suits, requiring the examination by the assignees to be conducted with his permission, and under his supervision and that of his deputies.

2. A very large number of law suits had been commenced, immediately after the suspension, against the company, in various places in the States of New York, Ohio, Virginia, Kentucky, and Indiana, and in the cities of Boston, Hartford, Philadelphia, Baltimore, St. Lonis, Nashville, and New Orleans. In these suits each plaintiff hoped, by attaching the credits of the Trust Company, to by attaching the credits of the Trust Company, to secure to himself full payment, and the suits have been vigorously prosecuted for the attainment of that object. The suits required attention and time. Some of them have been terminated, and a considerable amount of assets have been reclaimed for the general creditors, but a large portion ed for the general creditors, but a large portion of them, still undecided, are subject to the 'law's delay." The expenses attending this litigation, will reduce the amount of the assets in dispute, whether the decisions apply them to the attach-ing creditors, or to the general fund.

The causes above enumerated will account for

Had his Satanic Majesty, the Devil, himself, advertised for a year beforehand that he would be at the fair grounds to-day, throw up his commission and urn traitor to his natural calling, there would not have been more anxiety manifested by fallible humanity to witness that desirable feat, than was evinced by visitors and citizens to see the performances in the arena on this the third day of the exhibition. The day was most propitious for the enjoyment of every lover and admirer of the fine norse. The excessive heat of the two days past was cooled down by a stiff breeze, which continued throughout the day, and brought up a light shower late in the evening, much to the sat-

They were all on hand, outside the entrance gate, awaiting for the signal, and when the gate was opened they dashed in at a furious speed. Most of the number were the same that entered yesterday as harness stallions. The gay Silver Reels showed himself in the arena for the first time since his triumph last year. He has not been in barness for twelve months until to-day. His ex-citable disposition caused him to fly all to pieces, which made him almost unmanageable. GEO. W. JOHNSTON, JUDGE. SATURDAY, September 11. THE FIGHTING AND STABBING AFFAIR.—Pat. Con-er, or Carter, Thomas Jameson, and John Jameson, were again brought out for examination on he charges of fighting, etc., and stabbing John Donovan. The latter lies in a critical condition, difficult to tell whether he will live or dic. The monwealth was not ready to make out a case, owing to the absence of witnesses, and the case was continued till Monday.

STEALING A GOLD CHAIN.—John Marshall, a tall

free negro, was arrested by officer Harvey Seaton, on the charge of having stolen a gold fob chain from Fletcher & Bennett, on Main street. He went from Fletcher & Bennett, on Main street. He went into the store with the ostensible purpose of pnr-chasing a watch chain, but after overhauling the pile, and secretly folbing or pocketing a fob chain, concluded not to buy, and was about to go away, but the chain was missing, and on grabbing the black rascal the missing chain was found in his pocket. It was a clear clase, and bail of \$400 was required to answer a felony, and in default he was committed, though his attorney was of the opinion that on a final trial he will prove it a case of absence of mind, though the accused has served a term or two in the penitentiary. fords, and Brantins, and even they seemed to look upon it as a shame that the liberality of the managers had offered silver pitchers for the worst looking chucklehead cattle that could be produced. There was a lot of big, fine, fat bullocks exhibited by Joseph Shelby, Esq., of Lafayette county, Missouri. Four of the number were the same steers that Isaac Shelby, of Lexington, Kv., took prizes with last year. A gentleman, of St. Louis, bought them from Mr. Shelby last year, and they were recetly sold to Shelby of Mo., who now owns the fattest bullocks and heifers of any man in America. These huge monsters, weighing three thousand pounds each, are worth the trip of a hundred miles to see. The lour Kentucky steers are no heavier than when exhibited last year. Mr. Isaac Shelby, of Kv., has finished the work of perfecting Durhams. They could be made no heavier or fatter. We learn that they will be separated this winter and sent to different markets for christmas roasts.

The call for harness stallious, at 2 o'clock, was answered by seventeen as gay and fleety steeds as ever trod the earth. They came dashing in at a wild gait; and, after making several rounds, each one competing, with all the rest, in speed and style, were rounded to, with heads to the center. They were then called out, two at a time, the principle of the opinion that on a final trial he will prove it as ease of alse of mind, though the accuse of the opinion that on a final trial he will prove it as ease of alse of mind, though the accuse of the opinion that on a final trial he will prove it as ease of mind, though the accuse of the saserved a term or two in the penitentiary.

The rain on Thursday created confusion, dis tress, and quite a scene at the St. Louis Fair. The Denicerat of that city gives this account of it About 3 o'clock the rush for omnibuses and were very inconvenient. Skeleton skirts were totally animanageable, and in hundreds of cases were to the fair to-day, was even greater than on yesterday, consequently the roling slock was taxed again beyond its power. The grand march began at six o'clock and continued up to twelve, by which time all the available space inside the gates was occupied. The morning dawned with a brisk, whirling breeze from every point of the compass, which hurried the flying clouds swiftly in all directions.

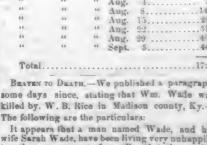

The most attractive bill of the week was that ofto-day—the roadslers; which was sufficient to induce every one, ladies and all, to sacrifice personal comfort and convenience that they might witness the contest for the pitcher by the two-forty coursers. So great was the anxiety to see the performances, that no notice was taken of the early indications of a delnge. St. Louis was emptied of half her population. Young and old, girls and boys, sage and gay, all forsook their various callings and hurried to the fair.

THE SCHOOL FOR SCANDAL. -Our appreciative citizens will be gratified to see the annunciation of Mr. James E. Murdoch's appearance in the startling old comedy of the School for Scandal. In the entire range of English literature there cannot be found the equal of this elegant play-in wit, truthfulness to nature, and the delineation of the smaller vices of mankind. Hundreds of people we wot of would do well to attend the representation to-night. They will find themselves de picted with masterly skill. In fact, there is nothing finer than the representation of the group of day night. slanderers who, like the chorus of Eumenides, go searching about for their prev with "eyes that drop poison." That Sheridan was the anthor of the School for Scandal, who does not know He produced it before reaching the age of twenty-six and it was played almost continually at the leading theater of London, during the years 1777-75-80-S1 and S2, the nightly receipts never being less than two hundred pounds.

To-night will be Murdoch's first appearance in our city since his return from Europe, where his success was never equalled by any actor from this side of the Atlantic. We have longed once more to hear the rich melody of Murdoch's delicious voice, and we are delighted that our wish is about to be gratified. He is certainly the most pleasing actor we have ever seen. His acting is character terized by the most refined taste, and bears marks of scholarship, such as arc rarely evidenced on the stage. He is a thorough scholar and a thorough gentleman, and his performancea exhibit the talent of the one and the exquisite taste of theother. During his stay with us the Theater will be what it rarely is, but what it should ever be-a school of art.

WATERS & POX. AGUE AND FEVER, OR CHILLS AND FEVER,

SPEEDILY CURED BY

TONIC SIRUP. TillE attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fever, is respectfully invited to this celebrated medicine, which has justify obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chills and Fever, or Ague and Fever. be public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purestfully selected reliable articles, and is always prepared by the proprietor in least, and, therefore, he can war it unform in conflict. and it uniform in quality.

Its Disphoretic and Alterative properties, combined with its great Tonic qualities, render it eminently superior to administrate and other remedies, as a general and popular remedy in all cases where a Tonic is required and proper to ministere I. does not produce Headache, Giddiness, Buzzing of the Eurs, or any of the unpleasant effects which so freattend the use of Quinine, or other remedies, but may be given in all cases, and under s , to Females, infants, and all persons who are debilitated, or have the most delicate cons

hatever, to Femaies, infants, and all persons who are definitated, or have the most deficate constitutions, without a least apprehension of any injurious or even unpleasant effects.

Practilioners of medicine who have not prescribed it, and afflicted persons who have not need it, are respectfully when to give it but a fair trial, and they will then be convinced of its great superiority over other remodies and ait it possesses all the virtues claimed for it.

It is notionly perfectly safe and innocent in its effect, but in no case whalever has it been known to fail in curing fulls and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and Ills and Fever, or Ague and Fever, whether or short or long wanning, it the universal and the States of Kenrried out.

This medicine has become a staple remedy, and for years has been extensively used throughout the States of Kencky, Tennessee, Alabama, Missi sippl, Louisiana, Texas, Arkansas, Missouri, Illin 's, I wa, Wisconsin, Ohlo, Indina, Nebraska, Pennaytvania, Michigan, and California, and more lately in Kansas. Territory, and has parmanently
ired near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years'
and had recisted all the usual remedies known in the country, and in no case the it fail to make a perfect
id permanent cure where the directions were properly followed. Such is its invariable success that it has gained
be confidence, favor, and patronge of a large number of respectable practiti ners of medicine throughout the
bunity, who prescribe and administer it in preference to Quinine and other remedies.

Persons living in districts of country subject to Chilis and Fever, ague and Fever, or Billious Fever, would do
ell to keep a constant supply of this invaluable remedy always on hand.

Rheumaile, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor, Borrhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that lis truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardeut spirits, or other forms of dissipation. Generally instantaneous in edect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in face, jufusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverse will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION:

The great popularity of this delightful Aroma has in-duced many limitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Buerhave's Holland Bitters it fair trinl. One bottle will convince how Infinitely supe

is, without doubt, a very great bore. Nineteen hundred and ninety-seven feet. Just think of it! liow fast it ught to travel with sush a prodiglous number. And if don't go barefoot, what an excellent opening for a hoe store down in its neighborhood. What s bore a gentleman would be in a parlor with half that number of feet. And if he had the gout, how painful it would be; or, If his boots pinched his feet, what a harvest for corn loctors. And then to call it "WELL!" Strange how things are misnamed. Perhaps the Artesian Well is the greatest bore ever known, unless it le to give your picdure to your sweetheart, and have it laughed at when your back is turned.
